

# AGILE LEADERSHIP PROGRAM

## The New World of Work

Today's unprecedented business challenges provide a unique opportunity for emerging leaders to step up and help organizations respond to disruptions. The Agile Leadership Workshop at Temple University's Fox School of Business will provide emerging leaders with the experience, capabilities and tools needed to design and lead successful transformation and change programs. This two-day workshop will allow participants to:

- Gain practical experience putting agile and leadership practices together.
- Develop a business case to gain support and drive executive engagement.
- Design and lead agile transformation projects.
- Implement effective change programs.

## PROGRAM FORMAT

Facilitators Steve Hart and Wayne Tarken bring a combined 35-plus years of experience to this workshop. Using both practical and theoretical applications, participants will be guided through four modules that outline research-based agile HR tactics to improve the way they work and agile leadership strategies to improve the way they lead.

## SESSIONS (completed across 2 days)

**Session 1:** Trends and Disruptions in the 4th Industrial Age

**Session 2:** EBIT2DA

**Session 3:** Strategic Leadership

**Session 4:** Case Studies
